

IFRS OVERVIEW

International Financial Reporting Standards (IFRS) are a set of accounting standards providing a global framework for how public companies prepare and disclose their financial statements. The uniform nature of these standards helps companies release financial information in a comparable way, improving communication with their stakeholders, decreasing investor uncertainty, reducing overall risk, and increasing market efficiency.

Class Schedule

Wednesday and Friday
8:00 PM - 10:00 PM
(In-Person & Live Online)

What is the need for IFRS?

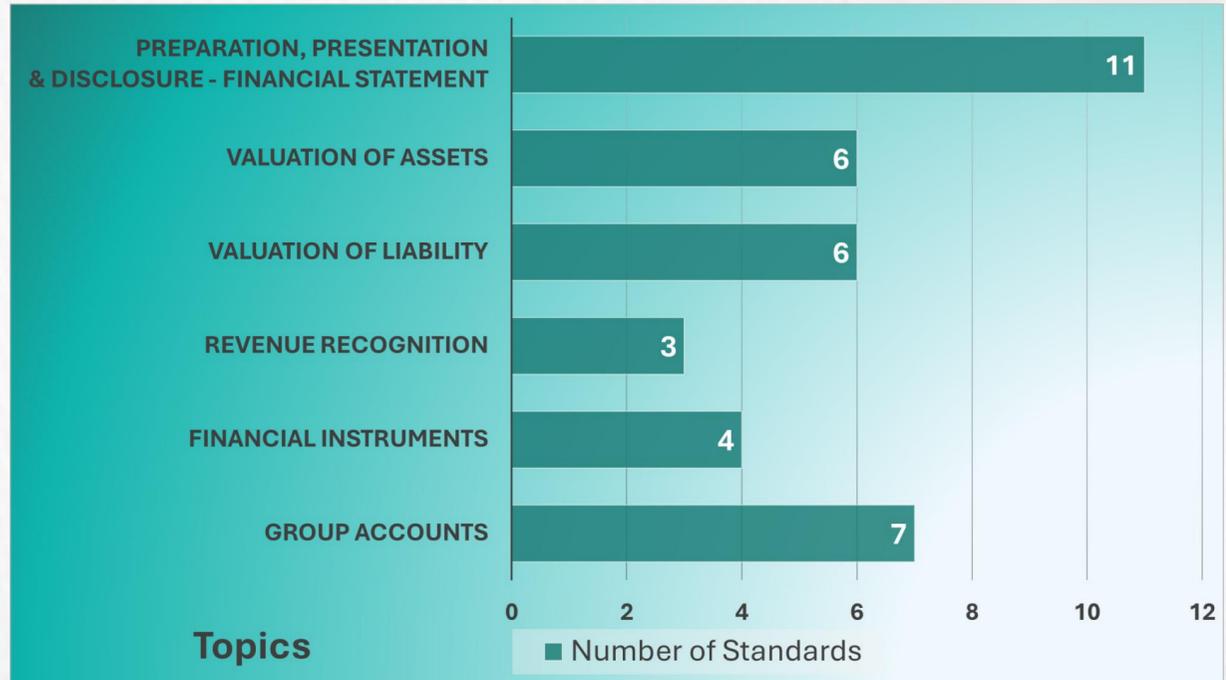

IFRS has been adopted by more than 120+ countries across the globe. India has revised the law to enforce IFRS implementation. Accountants migrating to Canada, Australia, New Zealand, and Europe will have **competitive** edge via their advanced knowledge of IFRS.

Advantages of Certification in IFRS
